Chevron Lummus Global Technologies Selected for Indian Grass-Roots Refinery

Richmond, CA, Chevron Lummus Global (CLG) completed the basic design for the Integrated ISOCRACKING and ISOTREATING units in the state of Madhya Pradesh, India. This 6 MMTA grass-roots refinery will produce Euro IV specification products to meet India's needs for clean fuels with the unique and efficient integration of VGO hydrocracking with the hydrotreating of various streams, including an entire range of coker distillates.

CLG licenses refining hydroprocessing technologies and sells catalyst systems worldwide, and is a 50-50 joint venture between Chevron U.S.A. Inc., a wholly owned subsidiary of Chevron Corporation, and ABB Lummus Global.
